Consumer Medicine Information (CMI)

This leaflet provides important information about using CherryCo Little Buddies. **You should also speak to your doctor or pharmacist if you would like further information or if you have any concerns or questions about using CherryCo Little Buddies.**

Where to find information in this leaflet:

1. Why am I using CherryCo Little Buddies?
2. What should I know before I use CherryCo Little Buddies?
3. What if I am taking other medicines?
4. How do I use CherryCo Little Buddies?
5. What should I know while using CherryCo Little Buddies?
6. Are there any side effects?
7. Product details

1. Why am I using CherryCo Little Buddies?

CherryCo Little Buddies is a medicinal cannabis product consisting of whole-dried cannabis flowers from the cannabis plant which have been grown under controlled conditions. It is supplied in a plastic jar. Each 1g contains the active ingredient 260mg of THC (delta-9-tetrahydrocannabinol).

This medicine is only available with a doctor's prescription.

Ask your doctor if you have any questions about why CherryCo Little Buddies has been prescribed to you.

The therapeutic effects and any potential side effects associated with medicinal cannabis use may vary depending on the amount of medicinal cannabis used and the medical condition being treated.

2. What should I know before I use CherryCo Little Buddies?

Warnings

Do not use CherryCo Little Buddies if:

- you are allergic to THC (delta-9-tetrahydrocannabinol) and any cannabinoids
- you have a previous history of schizophrenia or psychosis
- you are pregnant, you are planning to get pregnant, or you are breastfeeding
- the expiry date has passed
- packaging is damaged or shows signs of tampering.

Check with your doctor if you:

- have any other medical conditions
- take any medicines for any other condition.

During treatment, you may be at risk of developing certain side effects. It is important you understand these risks and how to monitor for them. See additional information under Section 6. [Are there any side effects?](#)

Pregnancy and breastfeeding

Check with your doctor if you are pregnant or intend to become pregnant.

Talk to your doctor if you are breastfeeding or intend to breastfeed.

Use with caution if:

- you have liver, kidney, heart or lung disease
- you have a family history of serious mental disorders such as schizophrenia, psychosis, depression, or bipolar disorder
- you have a history of alcohol or drug abuse or substance dependence.

3. What if I am taking other medicines?

Tell your doctor or pharmacist if you are taking any other medicines, including any medicines, vitamins or supplements that you buy without a prescription from your pharmacy, supermarket or health food shop.

You should also tell any health professional who is prescribing a new medication for you that you are taking medicinal cannabis as some medicines may interact with it and increase or reduce its effects. These include:

- Any drugs which slow down the central nervous system, causing drowsiness. These may include sleeping pills, sedatives, some pain medicines, some allergy or cold medicines, anti-seizure medicines or alcohol
- Other drugs that may interfere with medicinal cannabis include antiretroviral drugs used in the treatment of HIV/AIDS, some anti-depressants, stomach acid inhibitors, some antibiotic and antifungal medicines, certain heart medicines and Saint John's Wort.

Check with your doctor or pharmacist if you are not sure about what medicines, vitamins or supplements you are taking will affect CherryCo Little Buddies.

4. How do I use CherryCo Little Buddies?

How much to take / use

Your doctor will advise you on the most appropriate way to take CherryCo Little Buddies.

There is not yet a scientifically defined dose of medicinal cannabis for any specific medical condition. Your doctor will work with you to decide the dose of CherryCo Little Buddies that best suits you, your symptoms and minimises any unwanted side effects.

Follow all directions given to you by your doctor and pharmacist.

If you have not consumed medicinal cannabis before, you may like to have someone with you the first time you use it.

Your doctor will guide you how to start with a very low dose using the approach of "Start Low, Go Slow". You and your doctor will monitor the product's effectiveness and any side effects.

When to take / use CherryCo Little Buddies

Your doctor will work with you to decide how often to take the medicine that best suits you and your symptoms.

Always follow the instructions from your doctor when you take CherryCo Little Buddies.

Administration of CherryCo Little Buddies

Follow all directions given to you by your doctor and pharmacist.

If you forget to use CherryCo Little Buddies

CherryCo Little Buddies should be used at the times directed by your doctor.

If you forget to take it, do not take a double dose to make up for the dose that you missed. Wait until the next dose is due.

If you use too much CherryCo Little Buddies

If you think that you have used too much CherryCo Little Buddies, you may need urgent medical attention.

You should immediately:

- phone the Poisons Information Centre (**by calling 13 11 26**), or
- contact your doctor, or
- go to the Emergency Department at your nearest hospital.

Symptoms of overdose may include sleepiness, confusion, disorientation, clumsiness or loss of coordination, fainting, dizziness, chest pain, fast, slow or pounding heartbeat, panic attacks, loss of contact with reality and seizures.

5. What should I know while using CherryCo Little Buddies?

Things you should do

Call your doctor straight away if you:

- Suspect that you are experiencing any unwanted side effects
- Feel your condition worsens or does not improve over the time suggested by your doctor
- Change any of your other medications or are about to start using any new medication.

Remind any doctor, dentist or pharmacist you visit that you are using CherryCo Little Buddies.

Things you should not do

- Do not give CherryCo Little Buddies to anyone else, even if they have the same symptoms as you
- CherryCo Little Buddies should not be used by children or adolescents under the age of 18 years old.

Driving or using machines

Be careful before you drive or use any machines or tools until you know how CherryCo Little Buddies affects you.

DO NOT DRIVE OR OPERATE MACHINERY IF AFFECTED BY CherryCo Little Buddies.

Please also be aware that in most Australian states and territories driving with a detectable level of THC in your body is illegal, even though it may not impair your ability to drive.

Check with your doctor when it is safe to drive after stopping taking CherryCo Little Buddies.

CherryCo Little Buddies may make you feel drowsy, sleepy or dizzy.

Drinking alcohol

Tell your doctor if you drink alcohol.

Your doctor can tell you when alcohol should be avoided and the side effects that may occur.

Looking after your medicine

Follow the instructions in the carton on how to take care of your medicine properly. Store below 25°C and away from direct sunlight in a cool and dry place. For example, do not store it:

- in the bathroom or near a sink, or
- in the car or on window sills.

Keep it where young children cannot reach it.

When to discard your medicine

Return any unused or expired CherryCo Little Buddies to pharmacy for disposal.

Disposal of unwanted medicine

If you no longer need to use this medicine or it is out of date, take it to any pharmacy for safe disposal.

Do not use this medicine after the expiry date.

6. Are there any side effects?

All medicines can have side effects. If you do experience any side effects, most of them are minor and temporary. However, some side effects may need medical attention.

See the information below and, if you need to, ask your doctor or pharmacist if you have any further questions about side effects.

Side effects

Most Common side effects	What to do
<ul style="list-style-type: none">• drowsiness or fatigue• dizziness or feeling light headed• dry mouth, throat irritation• anxiety• nausea• cognitive effects• phlegm and cough	Speak to your doctor if you have any of these side effects and they worry you.
Common side effects	
<ul style="list-style-type: none">• feeling tired or change in sleep patterns• appetite change• change in taste• fast heartbeat• euphoria• blurred vision• headache	
Rare side effects	
<ul style="list-style-type: none">• orthostatic hypotension• toxic psychosis or paranoia• depression• ataxia or dyscoordination• tachycardia (after titration)• cannabis hyperemesis• diarrhea• hallucinations or hearing voices	

Serious side effects

Serious side effects	What to do
<ul style="list-style-type: none">◆ If you experience any of the above side effects for a prolonged period of time or if severe◆ Allergic reaction or breathing related:<ul style="list-style-type: none">• itching, hypersensitivity like a rash or hives• chest tightness, wheezing coughing or difficulty breathing	Call your doctor straight away, or go straight to the Emergency Department at your nearest hospital if you notice any of these serious side effects.

Tell your doctor or pharmacist if you notice anything else that may be making you feel unwell.

Other side effects not listed here may occur in some people.

Reporting side effects

After you have received medical advice for any side effects you experience, you can report side effects to the Therapeutic Goods Administration online at www.tga.gov.au/reporting-problems. By reporting side effects, you can help provide more information on the safety of this medicine.

Always make sure you speak to your doctor or pharmacist before you decide to stop taking any of your medicines.

This leaflet was prepared in Nov 2023.
Leaflet CMI Code: CMI-AU08-S26-15
Version: 1.0

Little Buddies

Every Little Buddies bag will consist of a single cultivar, however depending on the availability, the cultivar will vary from batch to batch. These cultivars will be named and grouped by Sativa or Indica strain and THC content.

The back of each bag of Little Buddies will feature information about the included cultivar. If this cultivar is available in the Little Green Pharma (LGP) or CherryCo Signature (CC) product ranges, it will

be clearly indicated in brackets on the back of the bag (e.g. Lemon Skunk (LGP) or XXXOG (CC)). This means a patient can continue with the same flower cultivar for every script but the prescriber will need to write a new script for this specific cultivar from the LGP or CherryCo Signature range, as long as it is available.

The following cultivars can be expected to be included in the Little Buddies ranges, along with others in future.

15g sachet

The strain information is located on the back of the sachet.

Potential cultivars & terpene profiles[†]
