

El Camino Mango Lemonade (Medicinal Cannabis)

Consumer Medicine Information (CMI) summary

The [full CMI](#) on the next page has more details. If you are worried about using this medicine, speak to your doctor or pharmacist.

1. Why am I using El Camino Mango Lemonade?

El Camino Mango Lemonade contains the active ingredient tetrahydrocannabinol (THC). El Camino Mango Lemonade is not an approved medicine. It should only be used to treat specific conditions or symptoms authorised by your healthcare practitioner.

For more information, see Section [1. Why am I using El Camino Mango Lemonade?](#) in the full CMI.

2. What should I know before I use El Camino Mango Lemonade?

Do not use if you have ever had an allergic reaction to cannabis or any of the ingredients listed at the end of the CMI.

Talk to your doctor if you have any other medical conditions, take any other medicines, or are pregnant or plan to become pregnant or are breastfeeding. For more information, see Section [2. What should I know before I use El Camino Mango Lemonade?](#) in the full CMI.

3. What if I am taking other medicines?

Some medicines may interfere with El Camino Mango Lemonade and affect how it works. A list of these medicines is in Section [3. What if I am taking other medicines?](#) in the full CMI.

4. How do I use El Camino Mango Lemonade?

El Camino Mango Lemonade should be administered only by using a TGA registered vaporiser device.

Use the amount of El Camino Mango Lemonade directed by your doctor. Follow your doctor's instructions and use El Camino Mango Lemonade until your doctor tells you to stop.

More instructions can be found in Section [4. How do I use El Camino Mango Lemonade?](#) in the full CMI.

1. Why am I using El Camino Mango Lemonade?

El Camino Mango Lemonade contains, dried, trimmed and cured, medicinal cannabis from the cannabis plant.

El Camino Mango Lemonade is a THC dominant medicinal cannabis flower with high concentrations of THC. El Camino Mango Lemonade is an Indica dominant subspecies of *Cannabis Sativa* L.

Active Ingredients

The plant material contains the active ingredient tetrahydrocannabinol (THC). Each gram of dried flower contains 24% (w/w) THC. Each 15g package contains 2400mg THC.

Legal Status

Medicinal Cannabis is a Controlled Drug. Possession without authority is illegal. Poison Schedule: Schedule 8

El Camino Mango Lemonade is not an approved medicine. It should only be used to treat specific conditions or symptoms authorised by your doctor.

El Camino Mango Lemonade is an alternative therapeutic option when standard of care treatments have not been beneficial. This medicine is only available with a doctors prescription and approval via the TGA special access scheme or authorised prescriber scheme.

The therapeutic benefit of El Camino Mango Lemonade may vary between individuals.

Ask your doctor if you have any questions about why El Camino Mango Lemonade has been prescribed for you.

2. What should I know before I use El Camino Mango Lemonade?

Warnings

Do not use El Camino Mango Lemonade if:

- you are allergic to cannabis plant material or, or any of the ingredients listed at the end of this leaflet.
- you are pregnant, planning to become pregnant or breastfeeding. THC may affect fetal development and can pass into your breastmilk. It may affect your baby. Always check the ingredients to make sure you can use this medicine.

Check with your doctor if you:

- have a serious heart problem such as angina, a previous heart attack, poorly controlled high blood pressure or a problem with your heart rate or heart beat.
- have a personal history of serious mental disorders, such as schizophrenia or psychosis, unless specifically prescribed by a qualified healthcare provider aware of your psychiatric disorder.
- have serious pre-existing lung problem (pulmonary disease), such as chronic obstructive pulmonary disease (COPD), asthma, emphysema, pneumonia or other lung infections
- have epilepsy or regular fits (seizures)
- have serious liver or kidney disease
- are less than 18 years of age
- have previously abused any drug or substance
- take any medicines for any other condition.

During treatment, you may be at risk of developing certain side effects. It is important you understand these risks and how to monitor for them. See additional information under Section [6. Are there any side effects?](#)

Pregnancy and breastfeeding

Check with your doctor if you are pregnant or intend to become pregnant. THC can cross the placenta and may harm your baby.

Talk to your doctor if you are breastfeeding or intend to breastfeed.

THC can pass into your breastmilk if you are breastfeeding. It may affect your baby.

3. What if I am taking other medicines?

Tell your doctor or pharmacist if you are taking any other medicines, including any medicines, vitamins or supplements that you buy without a prescription from your pharmacy, supermarket or health food shop.

You should also tell any health professional who is prescribing a new medication for you that you are taking El Camino Mango Lemonade. If you see a different doctor or go into hospital, let them know all the medicines you are taking.

Some medicines may interfere with El Camino Mango Lemonade and affect how it works. El Camino Mango Lemonade may also affect how other medicines work,

These medicines include warfarin and other blood thinners, strong pain killers and other medicines used for anxiety, depression, epilepsy and sleep aids. This list is not exhaustive. If any of the above apply to you (or you are not sure), talk to your doctor or pharmacist before using El Camino Mango Lemonade.

Do not take El Camino Mango Lemonade with alcohol and/or other CNS depressants/sedatives including prescription medications, e.g., benzodiazepines. Using El Camino Mango Lemonade at the same time as alcohol and/or other sedative drugs may cause more severe levels of impairment and side effects.

Check with your doctor or pharmacist if you are not sure about what medicines, vitamins or supplements you are taking and if these affect El Camino Mango Lemonade.

4. How do I use El Camino Mango Lemonade?

How much to take / use

- El Camino Mango Lemonade can be taken on a regular dosage schedule or as needed (PRN) as determined by your healthcare provider.
- An adjustment period may be required to reach optimal dose
- The amount of El Camino Mango Lemonade you use each day will depend on your response and tolerability to the product
- Your doctor will provide you with a treatment schedule based on your needs
- Always use El Camino Mango Lemonade exactly as instructed by your healthcare provider or pharmacist. Check with your healthcare provider or pharmacist if you are not sure.
- During the use of El Camino Mango Lemonade, you should be under medical supervision to help you determine if the product is working or if you are having any side effects from the treatment.
- Effects from El Camino Mango Lemonade may begin within approximately 5-10 minutes after you take a dose and may last for about 2-4 hours, depending on

the dose you took, how long you have been taking this medication and individual response

- Do not use more than the recommended dosage.

When to take / use El Camino Mango Lemonade

- El Camino Mango Lemonade should be used as directed by your doctor
- This product can be taken with or without food.

How to administer El Camino Mango Lemonade

- El Camino Mango Lemonade should be inhaled using a TGA approved vaporizer.
- Do not administer El Camino Mango Lemonade via combustion (smoking or smoking paraphernalia) as this may pose a risk to your health, including the potential to contribute to chronic obstructive pulmonary disease (COPD).

If you use too much El Camino Mango Lemonade

If you think that you have used too much El Camino Mango Lemonade, you may need urgent medical attention.

You should immediately:

- phone the Poisons Information Centre (by calling 13 11 26), or
- contact your doctor, or
- go to the Emergency Department at your nearest hospital.

You should do this even if there are no signs of discomfort or poisoning.

5. What should I know while using El Camino Mango Lemonade?

Things you should do

- Take El Camino Mango Lemonade as your doctor has prescribed.
- Remind any doctor or pharmacist you visit that you are using El Camino Mango Lemonade.
- Tell your doctor if your symptoms do not improve.
- Take special care if you drink alcohol while using El Camino Mango Lemonade. Using El Camino Mango Lemonade and alcohol together may increase their effects (such as loss of balance or ability to respond quickly).

Remind any doctor, dentist or pharmacist you visit that you are using El Camino Mango Lemonade.

Call your doctor straight away if you:

- Are pregnant or become pregnant while taking El Camino Mango Lemonade.
- Need to have medical tests while you are taking El Camino Mango Lemonade. It may affect the results of some tests.

Things you should not do

- Do not stop using this medicine suddenly without telling your doctor. If you stop taking it suddenly or change the dose, your condition may worsen, or you may have unwanted side effects.
- Do not use El Camino Mango Lemonade to treat any other complaints unless your doctor tells you to.
- Do not give your medicine to anyone else, even if they have the same condition as you.

Driving or using machines

Be careful before you drive or use any machines or tools until you know how El Camino Mango Lemonade affects you.

El Camino Mango Lemonade may cause you to feel sleepy or dizzy and can also slow your thinking abilities. This can lead to decreased concentration and coordination, slowed reaction time, and impaired motor skills. These effects may be increased while taking other medicines.

Before driving you should check your state's driving laws.

In Australian states and territories, it is against the law to drive with THC in your body, even if you are not impaired. If you are stopped for a random drug test and THC is detected, you could face a fine or loss of your license.

Drinking alcohol

Tell your doctor or pharmacist if you drink alcohol.

You should not drink alcohol while using El Camino Mango Lemonade since alcohol may increase the effects of El Camino Mango Lemonade that impair your thinking abilities, reaction time, coordination, and motor skills.

Looking after your medicine

- Store below 25°C, away from direct sunlight in a cool and dry place.
- Always keep your medication in its original packaging until it is time to take it
- Refer to the product label for expiry dates

Follow the instructions in the carton on how to take care of your medicine properly.

Store it in a cool dry place away from moisture, heat or sunlight; for example, do not store it:

- in the bathroom or near a sink, or
- in the car or on window sills.

Keep it where young children cannot reach it.

Getting rid of any unwanted medicine

If you no longer need to use this medicine or it is out of date, take it to any pharmacy for safe disposal.

Do not use this medicine after the expiry date.

6. Are there any side effects?

All medicines can have side effects. If you do experience any side effects, most of them are minor and temporary. However, some side effects may need medical attention.

See the information below and, if you need to, ask your doctor or pharmacist if you have any further questions about side effects.
