

# IndiMed Tempo 19 Pink Kush (Indica)

## Consumer Medicine Information

### What is in this leaflet

This information sheet answers some common questions about IndiMed Tempo 19 Pink Kush (Indica) . It does not contain all the available information. It does not take the place of talking to your doctor or pharmacist.

You should ensure that you speak to your pharmacist or doctor to obtain the most up to date information on the medicine. Those updates may contain important information about the medicine and it's use of which you should be aware.

All medicines have risks and benefits. Your doctor has weighed the risks of you using IndiMed Tempo 19 Pink Kush (Indica) against the benefits they expect it will have for you.

If you have any concerns about taking this medicine, ask your doctor or pharmacist.

Keep this information sheet. You may need to read it again.

### What this medicine is used for

Your doctor will prescribe IndiMed Tempo 19 Pink Kush (Indica) based on your individual health needs.

IndiMed Tempo 19 Pink Kush (Indica) is a THC dominant cannabis flower. Cannabis may be prescribed to help manage a range of symptoms associated with a number of conditions including:

- Chemotherapy-Induced nausea and vomiting (CINV)
- Management of epileptic seizures and conditions
- Inflammatory bowel disease • Inflammation related conditions
- Anxiety
- Multiple sclerosis (MS)
- Pain conditions, including neuropathic pain, fibromyalgia, rheumatoid arthritis, and mixed chronic pain.

Your doctor may also prescribe IndiMed Tempo 19 Pink Kush (Indica) for another purpose. Ask your doctor if you have any questions

about why IndiMed Tempo 19 Pink Kush (Indica) has been prescribed for you.

This medicine is only available with a doctor's prescription. IndiMed Tempo 19 Pink Kush (Indica) is not listed or registered on the Therapeutic Goods Administration (TGA). Access is via clinical trial use, an authorised prescriber or through the TGA Special Access Scheme.

### Before you take this medicine

#### Do not use IndiMed Tempo 19 Pink Kush (Indica) if:

- You are allergic or hypersensitive to Cannabis. Some of the symptoms of an allergic reaction may include shortness of breath, wheezing or difficulty breathing; swelling of the face, lips, tongue or other parts of the body; rash, itching or hives on the skin.
- You or anyone directly related to you has any mental health problems such as schizophrenia, psychosis or any other significant psychiatric disorder.
- You are breastfeeding. Do not use during pregnancy, unless advised to by your doctor.

Do not use this medicine after the expiry date printed on the pack, or if the packaging is showing signs of tampering.

Do not use this medicine if any of the above applies to you. Talk to your doctor if you are concerned about starting this medicine.

#### Tell your doctor if:

- You are pregnant or plan to become pregnant.
- You are under 18 years of age.
- You have liver or kidney problems.
- You have a serious heart problem such as angina, a previous heart attack, poorly controlled high blood pressure or a problem with your heart rate or heartbeat.
- You are elderly, especially if you have problems doing everyday activities such as making hot food and drinks.

- You have previously taken any drug or substance recreationally.
- If you have not told your doctor about any of the above, tell them before you start using IndiMed Tempo 19 Pink Kush (Indica) .

Tell your doctor if you are taking any other medicines, including medicines that you buy without a prescription from your pharmacy, supermarket or health food shop.

You should also tell any health professional who is prescribing a new medication for you that you are taking IndiMed Tempo 19 Pink Kush (Indica) . Some medicines may interfere with IndiMed Tempo 19 Pink Kush (Indica) .

If any of the above apply to you (or you are not sure), talk to your doctor before using IndiMed Tempo 19 Pink Kush (Indica) . If you start seeing a different doctor or going to hospital, let them know all the medicines you are using.

### How to take this medicine

Vaporisation is the recommended method for inhaling dried medical cannabis flower.

A vaporiser is a device that heats dried medical cannabis without causing combustion.

Vaporisation produces a vapour rich in cannabinoids that can be inhaled directly. Please follow the instructions that come with your vaporiser.

A titration period may be required to reach your optimal dose. Your doctor will provide you with a treatment schedule based on your needs. Always use IndiMed Tempo 19 Pink Kush (Indica) exactly as your doctor has told you.

When you first start using IndiMed Tempo 19 Pink Kush (Indica) , start with 1 inhalation and wait at least 15 minutes before consuming more. Increase by 1 inhalation every 15-30 minutes until the optimal dose is achieved.

Only a doctor can start you on treatment with IndiMed Tempo 19 Pink Kush (Indica) . Your doctor

will assess you from time to time to see if you should continue taking it.

### How long to use it

Continue to use this medicine for as long as your doctor tells you to. Dependence is unlikely.

If you have any further questions on the use of this product, ask your doctor or pharmacist.

### If you forget to use it

Do not increase the dose at the same time to make up for a missed dose. If you have trouble remembering when to use your medicine, talk to your pharmacist or doctor.

### If you use too much (overdose)

Immediately telephone your doctor or the Poisons Information Centre (telephone 13 11 26) for advice or go to the Emergency Department at the nearest hospital, if you think that you or anyone else may have used too much of IndiMed Tempo 19 Pink Kush (Indica). Do this even if there are no signs of discomfort or poisoning. If you accidentally use more of this medicine than prescribed, you may:

- Feel dizzy, sleepy or confused.
- Feel your heart rate change.

If you experience any of the above symptoms, and they become concerning you, tell your doctor or pharmacist.

## While you are taking this medicine

### Things you must do

- If you are about to be started on any new medicine, tell your doctor that you are using IndiMed Tempo 19 Pink Kush (Indica).
- Talk to your doctor before using this medicine if you are pregnant or plan to become pregnant.
- If you have any further questions on the use of this product, ask your doctor or pharmacist.

### Things you must not do

- Do not give IndiMed Tempo 19 Pink Kush (Indica) to anyone else, this medicine is prescribed for you. Even if they have the same condition as you, do not pass it on to others. It may harm them, even if their symptoms are the same as yours.
- Do not use IndiMed Tempo 19 Pink Kush (Indica) while breastfeeding or during pregnancy, unless advised to by your doctor.

### Things to be careful of

Using IndiMed Tempo 19 Pink Kush (Indica) with food and drink:

- Do not drink alcohol while using IndiMed Tempo 19 Pink Kush (Indica)

Using IndiMed Tempo 19 Pink Kush (Indica) and alcohol together may increase their effects (such as loss of balance or ability to respond quickly).

### Foreign travel with IndiMed Tempo 19 Pink Kush (Indica)

- IndiMed Tempo 19 Pink Kush (Indica) is a cannabis product, and a controlled drug in some countries. Legal status for its use and possession may vary between countries. Check that it is legal for you to take this medicine into any countries you are travelling to and countries you are travelling through. It is strongly recommended that you keep a copy of your doctor's contact details and business card on your person at all times for any emergency purposes.

## Possible side effects

Tell your doctor or pharmacist as soon as possible if you do not feel well as a result of using IndiMed Tempo 19 Pink Kush (Indica).

All medicines can have side effects. Sometimes they are serious, most of the time they are not. You may need medical treatment. You are more likely to get side effects when you start your treatment. They are usually mild and wear off within a few hours. Do not be alarmed by these lists of possible side effects. You may not experience any of them. Ask your doctor or pharmacist to answer any questions you may have.

### Tell your doctor if you notice any of the following side effects:

- problems with your memory or having trouble concentrating
- changed sense of taste or a dry mouth
- lack of energy or feeling weak or generally unwell
- feeling abnormal, sleepy or drowsy
- constipation or diarrhoea
- feeling nauseous or vomiting
- feeling depressed or disorientated
- stomach pain

### Tell your doctor immediately or go to the Emergency Department at your nearest hospital if any of the following happens:

- you develop signs of allergy such as swelling of the face, lips, tongue or other

part of the body

- severe dizziness or fainting
- redness, itching or rash on the skin.

Tell your doctor if you notice anything else that is making you feel unwell.

Some people may have other side effects not yet known or mentioned in this leaflet. Some side effects may only be found when your doctor does tests from time to time.

## Storage and disposal

### Storage

- Do not use IndiMed Tempo 19 Pink Kush (Indica) after the expiry date shown on the product packaging.
- Store IndiMed Tempo 19 Pink Kush (Indica) upright in its carton below 25°C. Keep away from heat and direct sunlight.
- Unless your doctor tells you to, do not keep medicines that you no longer need.
- Keep out of reach and sight of children. A locked cupboard at least one-and-a-half meters above the ground is a good place to store medicines.

### Disposal

Medicines should not be disposed of via wastewater or household waste. Any unused medicine or medicine past its expiry date, as shown on the dispensing label or packaging, should be returned to the pharmacy.
